VOLUME 1 1991

SUBJECT INDEX

Accelerated fatigue tests, 59
Acoustic emission, 45
Anabolic process, 195
Aneurism, 127
Anisotropy, 19, 75
Aortic bifurcation, 173
Arteriosclerosis, 127
Atherosclerosis, 173

Bending strength, 45
Bile duct system outside the liver, 105
Bioceramics, 11
Biomaterial, 167
Biomechanics, 167, 215
Biomedical membranes, 137
Blood flow, 173
Blood vessel, 25, 233

Cardiovascular grafts, 25
Catabolic process, 195
Cellophane membrane, 25
Cellophane tube, 25
C-FDA, 115
Common bile duct, 105
Common hepatic duct, 105
Computer control, 215
Computer simulation, 173
Continuous counting, 115
Crack arrest, 223
Crack initiation processes, 75
Creep, 233
Cushioned plate, 243
Cystic duct, 105

Degradation, 233
Dental composite resin, 45
Diagnosing method, 127
Dielectric properties, 155
Drilled bone, 251

Elastomers, 59
Electro-ceramics, 155
Evaluation, 159
Evoked potential (EP), 91
Extension and lateral bending, 203

Fatigue precracking, 223
Fatigue test, 25
Fatigue testing, 159
Fibrous network, 19
Finite deformation theory, 105
Flexion, 203
Flow cell system, 115
Fracture behavior, 45
Fracture fixation plate, 243
Fracture toughness, 45, 223

Hemodialysis, 25
Hepatic duct, 105
Hydroxyapatite, 167
Hydroxyapatite column, 143

Imaging and processing, 127
In vitro testing, 215
Incremental elasticity, 105
Inelastic deformation, 233
Intervertebral disc, 203

Kidney stones, 155

Ligament prosthesis, 159
Ligaments, 215
Living cell, 115
Long bone injuries, 3
Loss of strength, 251

Maximum length sequence or M-sequence (MLS), 91
Mechanical degradation of the artery, 127
Mechanical model, 203
Mechanical properties of soft tissue, 137
Mechanical property, 11, 243
Mechanical stimulation, 215
Mechanical test method, 25
Microporous arterial prothesis, 75

Orthopaedic surgery, 251
Osteoporosis, 243
Otolaryngology, 137

Permeability test, 25
Piezoelectric materials, 149
Poisson's ratio, 19
Polarity of electric field, 195
Pop-in, 223
Pulsatile internal pressure through-flow system, 25
Pulsatile pressure flow, 233
Puncturing test, 25

Rapid counting, 115
Renal calculi, 149
Ring specimen, 223
Rubbers, 59

Silicone rubber, 243
Sintered strontium-substituted hydroxyapatite, 11
Skin, 19
Solubility, 11
Spiral fracture, 3
Statistical analysis, 59

Strain, 59
Stress distribution, 105

Test method, 137
Transverse fracture, 3

Ultrasound Doppler effect, 127
Unsteady flow, 173

Viral adsorption, 143
Viral preparation, 143
Viscoelasticity, 127, 203
Visual evoked potential (VEP), 91

Wear, 159

X-ray diffraction technique, 149

AUTHOR INDEX

Agarwal, R., 149, 155
Akao, M., 11
Aoki, H., 11

Chan, F. H. Y., 91
Chauhan, S. K., 251
Cieszyński, T., 195

Damri, D., 223
Desrosiers, E. A., 215
Dhawan, U., 149
Doherty, P. J., 75
Drouin, G., 159
Du, M. H., 91

Hanaoka, K., 223
Higashikata, M., 11
Higo, Y., 223
Hillerton, J. E., 19

Ikada, Y., 243
Ikeuchi, K., 243
Imai, Y., 45
Ito, K., 167
Iwamoto, T., 223

Jian, C., 105

Katsura, Y., 143
Kim, K.-H., 45
Kishi, T., 45
Kowata, I., 137
Kumada, K., 223
Kuroda, S., 3
Kutsuna, T., 243

Lam, F. K., 91
Lees, C., 19
Lou, Z., 173

Maeyama, T., 233
Masson, M., 159
Matsumoto, K., 115
McMillin, C. R., 59
Miyasaka, Y., 3
Mori, S., 127

Nagpal, K. C., 149
Nakamura, S., 11
Noritake, M., 143
